PROFESSIONAL SUMMARY

Aspiring Artificial Intelligence Engineer with a strong academic foundation in computer science and real-world experience building ML-powered and cloud-native applications. **Google Cloud Arcade Champion** and **Azure AI Certified** with demonstrated ability to design, deploy, and explain machine learning models using modern frameworks and LLMs. Adept at solving real-world problems through end-to-end AI project development, cloud deployment, and data-driven decision making. Seeking to bring innovation, performance, and impact to leading AI teams.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, C, JavaScript, Asp.Net
- **Web Development:** HTML, CSS
- **Tools & IDEs:** Visual Studio Code, PyCharm, Apache NetBeans
- **Database Management:** MySQL, MongoDB

EDUCATION

Master of Computer Applications (MCA)   Jun 2025 - Present
Amity University (Online)
Bachelor of Computer Application (BCA)   June 2022 -May 2025
Sahyog College of Technology   **Percentage - 80%**

EXPERIENCE
GenAI Intern *(Remote)* | TRC Innovation   Oct 2024 –Dec 2024
- Trained and fine-tuned LLMs for real-world business use cases.
- Built GenAI prototypes using Google Cloud's AI tools (Gemini, Vertex AI).
- Delivered internal demos and workshops to cross-functional stakeholders.

PROJECTS

FOOD DELIVERY SYSTEM ⭕

- Developed a robust food delivery management system using **Python** and **Tkinter** for the user interface.
- Implemented secure user authentication, dynamic menu management, and real-time order tracking.
- Utilized MySQL for efficient data storage and retrieval, ensuring seamless user experience.
- **Key Features**: User-friendly design, secure login, and efficient order processing. Project Link

LIBRARY MANAGEMENT SYSTEM ⭕

- Designed and developed a comprehensive library management system using **Java** and **MySQL**.
- Incorporated features such as book cataloging, user management, and book issuance/return tracking.
- Enhanced system functionality with an admin panel for managing books and user accounts.
- Key Features: Efficient book search, user-friendly interface, and secure data management. Project Link

CERTIFICATIONS

Google Cloud Arcade Champion (2025)
- Mastered GCP tools for infrastructure, ML, and data engineering through hands-on labs.

Microsoft Azure AI Engineer Associate (2025)
- Certified in designing and deploying AI solutions using Azure Cognitive Services and ML.

Google Cloud GenAI Academy (2025)
- Trained in Vertex AI, Gemini APIs, Imagen, Streamlit, and RAG for GenAI development.
